

The Sutton

The 2,698 square foot Sutton is anchored by a spacious two-story family room that flows seamlessly into the kitchen and breakfast areas overlooking a private deck. Open concept hospitality spaces make the Sutton the perfect place to entertain. Keep everything you need for cooking and hosting guests stored in the roomy walk-in pantry. The first floor study provides a quiet retreat without

having to stray too far from the action or the essential conveniences that the kitchen provides.

The second floor owner's suite boasts a luxurious walk-in closet and private full bath. The laundry, additional bedrooms, and shared full bath located on the second floor, provide a wealth of room for guests and loved ones.
